**October 27, 2024**

“The Middle East conflict is escalating quickly and the United States needs to use the leverage we have to bring peace. We must win a permanent ceasefire in Gaza, Israel, and Lebanon while ensuring a broader regional war does not break out between Iran and Israel.

Friends, FCNL, and the USA need to focus on stopping new offensive weapons going to Israel. Israel is committing war crimes in Gaza, has invaded Lebanon, and there is a risk of full-blown war between Israel and Iran.”
